

Update to Individual Product Transfer Rules

The Individual Product transfer grid has been updated effective January 1, 2009 . The new version is attached as a separate document with this Insight and will be available soon at www.regence.id.com. Please note that the reference to transferring to the Summit \$1000 deductible plan has been eliminated as that product is no longer available to new business effective January 1st. (Please reference Agent Insight dated November 21, 2008). There are also changes that apply to transferring from Regence NowSelect to Regence Summit. Please replace your old grid with this new version for effective dates of January 1, 2009 and after.

If you have any questions, please contact your Individual Products Sales Representative.
